It is our aim that we supply those that grow direct for the purpose of growing plants or flowers to sell, or dealers that supply the trade.

If you are not thoroughly acquainted with Dahlias best suited for your purpose, write us and we shall be glad to help you to the best of our knowledge.

STATE OF NEW JERSEY

ALVA AGEE, Secretary

Bureau of Statistics and Inspection

HARRY B. WEISS, Chief

No. 280

Trenton, N. J., September 1, 1930

This is to certify that we have this 8th day of July, 1930, in accordance with the provisions of Chapter 268, Laws of 1916 State of New Jersey, inspected or caused to be inspected by a duly appointed Inspector the general nursery stock growing in the Shady Lawn Nurseries of Hugo Kind, proprietor, at Hammonton, in Atlantic County, New Jersey, and have found the same apparently free from San Jose and other dangerously destructive insect pests.

This certificate expires June 1, 1931, and covers stock actually in the nurseries when examined.

WM. H. MARTIN,
State Plant Pathologist.

THOMAS J. HEADLEE,
State Entomologist.

RALPH B. LOTT, Chief Inspector.

FROM NURSERY CERTIFIED BELOW

VIRGINIA DEPARTMENT OF AGRICULTURE AND IMMIGRATION

Official Tag No. 1474

Richmond, Va., November 23, 1930.

This is to certify that the certificate of a duly accredited inspector has been filed in this office stating that the premises of Shady Lawn Nursery, Hugo Kind, Hammonton, New Jersey, were examined season of 1930 and that the above mentioned certificate conforms to laws and regulations in force in this State.

This tag expires August 31, 1930. Issued on certificate of

T. J. HEADLEE,
State Entomologist.

G. T. FRENCH,
State Entomologist and Plant Pathologist.

Note—U. S. Federal Inspection

It is our custom to have Federal Inspectors, during shipping season, look over and carefully inspect our stock daily. All shipments undergo a rigid test. All stock so passed is labeled with the U. S. Department of Quarantine certificate.

SPECIAL RASPBERRY CERTIFICATE No. 3

Trenton, N. J., 1930.

This is to certify that the raspberry plants, roots or tips offered for sale by Hugo Kind of Hammonton, in Atlantic County, New Jersey, have been inspected in the field and found practically free from mosaic, leaf curl, rosette and similar diseases.

EDGAR G. REX, Chief Inspector.

Digging and Storage

It is of the general opinion that frost is necessary before digging. Such is not the case. The Dahlia (a native of Mexico) had never known frost. What is expedient is a short resting period. During Mexico's eight months of growing season and followed then by draught the plant naturally remains dormant. Under our "artificial" method of growing we should lift the tubers by about the end of October and store in a cool cellar; a light frost upon the leaves has no bad effect. A heavy freeze is apt to send the frozen juices to the bulb and what is known as dry rot will most always set in.

Dahlias are best stored in a damp cellar with plenty of fresh air. They can also be stored in barrels or boxes, but left open until all excessive moisture has left the roots. Covering to keep them from shriveling may be placed on them after January.

All Dahlias here listed are grown at our grounds at Hammonton, N. J., tried out and thoroughly rogued. Though we make no claims that the varieties listed are the choice of Dahlias, we have made up this selection for the wants of our customers. Kinds and varieties as to the best is entirely psychological and we leave the matter of choice to the buyer.

Dahlia Cultural Directions:

Clumps should be cut to single eye divisions. If sprouted cut the sprout within a quarter of an inch from the bulb.

They should be planted in rows of five feet apart and two to three feet in the rows. The best method is to lay the bulb flat (not stand) and cover with three inches of soil. If a row six inches deep is struck and roots planted three inches the row can be filled in from time to time. When the plant has attained a height of about eight inches pinch out the top. This will enable the plant to sprout and give proper flowers. A second pinching may be made in the early August. Not later. Disbudding of the side shoots is very essential. This will give you the fine exhibition flowers. We suggest five to six flowers to the plant. Flowers cut in the morning hold up best. Place in a cool cellar away from draft. Slightly syringe the flowers, this will stiffen them.

In rich soil fertilize slightly. In poor soils over fertilization can hardly be accomplished. Bone meal, manure, or any good potato fertilizer is essential.

Cut (greatly reduced in size) showing practical methods of dividing. The crown (note knife) can also be split with good results.

Dahlias

All stock listed are
strong divisions.

The kind of roots we send
out—They are grown from
divisions. We do not send
the small knotted pot grown
roots so often used. Our roots
are of good size, dependable
and well grown. Our dig-
gings are made immediately
after frost and it is our aim
that all stock be harvested be-
fore the stem is frozen. This
assures good keeping qualities.

3 bulbs at ten rate, 25 at 100
rate. Those listed singly at
prices quoted. If you wish
less than three of those listed
at ten rates add 3 cts. per bulb.

As a Charter Member of the American Dahlia Society I invite you to
join this grand organization.

If we should ship you by mistake,
Or in your bill some error make,
From irritation you'd be free
If I knew you and you knew me.
Or when the checks don't come on time,
And customers send us nary a line,
We'd wait without anxiety
If I knew you and you knew me.

Then let no doubting thoughts abide
Of firm good faith on either side;
Confidence to each other give,—
Living ourselves, let others live.
But any time you come this way,
That you will call we hope and pray:
Then face to face we each shall see,
And I'll know you and you'll know me.

Mrs. Helen Hollis. Brilliant red, not a keeper-----	1.00	8.00	
Mrs. Hugo Kind. A large flower that is held on long, stiff stems. Of a velvety red and of the most attractive shade. Different than most reds. Petals are irregular and of the most pleasing form-----	2.00		
Mrs. I. de Ver Warner (Marean). Orchid pink, very large, extra stem, strong grower, free bloomer, very satisfactory -----	1.25	12.00	
Mrs. J. Gardner Cassatt. Bright cerise pink, large flowers on long, stiff stems-----	1.00	8.00	
Mr. J. Harrison Dick. Here is the dahlia supreme for cutting or the garden. One of the most valuable new varieties of recent production. Color citron yellow at center, outer petals suffused and overlaid salmon pink, a lovely and effective combination, especially under artificial light. The plant is a wonderful grower of medium height and branching habit producing the perfect flowers in greatest profusion on long, stiff stems-----	1.00	8.00	
Mrs. John T. Sheepers. Canary yellow, suffused pink on the outer petals. The huge blossoms are produced with great freedom-----	3.00		
Mrs. Lillian Baldwin. Listed under Lillian Baldwin.			
Mrs. Nathaniel Slocomb (Decorative). A deep golden yellow of good form on long stems-----	1.75	16.00

are ten to eleven inches in diameter without disbud- ding. Color is entirely distinct; the buds are a light lemon yellow. As each petal expands the color changes chamelon like, to golden salmon with bronze suffusion (reflex, a beautiful spiral pink. A wonderful vigorous grower, with luxuriant bright, glossy green foliage. The flowers are most beau- tiful formed with long, irregular twisted and whorled petals, and produced freely on very long stiff stems, entirely distinct-----	2.00	18.00	150.00

Senator Baird. Red. Good stems, but nothing won- derful -----		3.00	25.00
Shower of Gold. Golden bronze. Long stems. A very beautiful Dahlia. Petals of Chrysanthemum type -----		4.00	
Shannon (Wigginton). Large bold flower in cop- pery orange -----		6.00	
Somerset. Is a large decorative on excellent stems. Keeping qualities of the best if cut when the blooms have fully matured. Blooms freely. In fashioning this flower the genii of nature have blended the color tones in a manner that makes description dif- ficult. But while the color somewhat varies ac- cording to weather conditions and the age of the flower, the general effect is that of salmon and old rose. As the blooms mature, the salmon changes into old rose, and like an after-thought, some- times, there is a touch of lavender there. There is just a slight twist to the petals and irregularity in the arrayal of same, which gives the flower an air of grace and refinement that is lacking in most large dahlias. Somerset is a healthy and vigorous grower, that you will not need to spray and dust or worry lest some insect give it a cross look. Even Dia-

Sylvia. Deep pink -----		1.00	8.00
Theo Vail. Old gold shading to apricot-----		3.00	
Tommy Atkins. Remarkable for its wonderful coloring. Brilliant flaming scarlet with golden metallic lustre, the brightest and richest red yet produced. The flowers are very large but not at all stiff or formal and are well placed on good long stems; early flowering and continues good to the end of the season; splendid for exhibition, the garden, or for cutting -----	1.00		
Trentonian. A mammoth Dahlia of fine quality. Excellent for exhibition purposes. Colors are of the autumnal shades. R. C. -----	1.00		
Tut. A dahlia that is unusual from other variegated sorts. Yellow, bronze and red. Striped and splash-ed like a Sioux Indian on the war-path. All colors gayly intermingled. Plant is of perfect growth. Flowers are borne on straight even stems-----		4.00

Gold Medal. "Kind's Gold Medal." Of all the show Dahlias we have, here is a Dahlia all by itself. The reader may recall the older variety of Gold Medal. A yellow base with markings of bronze. Ten years back we found a sport from this par- ticular sort which proved to retain its character. The color is of a most pleasing coppery bronze. Many of these flowers are shipped to the New York and Philadelphia markets. A color always wanted by the decorator. Consult your wholesaler as to his opinion on this particular Dahlia. Through a mis- understanding this Dahlia was given other names as "Gold Medal De Luxe," etc. There are the three strong points why you should have this Dahlia in your collection: A most desirable color, long sturdy stems, always in demand.-----

Rooted Cuttings

Rooted cuttings have been one of our most successful items among our Dahlia offerings. They not only give the first year the best exhibition flowers but save you many dollars by procuring at low cost the best high priced varieties. We have shipped them to almost every state in the Union and the testimonial letters received have been most gratifying.

HOW TO CARE FOR CUTTINGS WHEN RECEIVED

Unpack immediately, place in 2¼-inch pots or plant in shallow flats of soil. Shade for several days. Many of our customers report placing cuttings in the open field. Though this method of planting may be successful in a rainy period, one takes chances should hot, dry weather set in. Another good way when danger of frost is past is to plant in cool frames. Cheese cloth makes an excellent shade and also prevents draft from reaching the cuttings.

By this method stock will be ready in ten days and cuttings may be lifted with good soil adhering to roots. Always water well before lifting cuttings. An inexpensive way of shading in open field is to use magazine pages and placing a little soil at both ends. It is surprising how the moisture will remain under this covering.

Orders booked in rotation.

Charge orders not accepted on rooted cuttings.

No cuttings will be sent out earlier than February 1st. Stock shipped only at customer's risk.

Cuttings not returnable.

Local Landscape Gardener, Florist or Planter :

It has been our custom to carry in stock a complete line of all Evergreens, Rhododendrons, Large Privet, Trees, Rose Bushes, Flowering Shrubs, Nut Trees, and many other items. As our stock of this line is not sufficiently large enough to list, we therefore offer same only to the local trade. Our Nurseries are three-fourths of mile off from the White Horse Pike. A large attractive sign displaying a mammoth pink cactus Dahlia which is erected on the Pike at our road will give you our location.
